Tom Martin began his law enforcement career in 1988 as a uniformed New York State Trooper, and began his forensic career in 1990 as a crime scene field technician. After four years of patrol, Tom was assigned to the NYSP Forensic Identification Unit in Poughkeepsie, in 1992, and remains in that assignment today. Tom served for nearly four years as an investigator in the Troop K Forensic Unit, before being promoted to his current title of Senior Investigator in 1996 and assigned as member in charge of the unit. As the supervisor of the forensic crime scene unit, Tom holds several forensic science certifications, and regularly provides expert forensic testimony in various state and federal courts.

Tom's training and experience encompass several fields of expertise, including: forensic crime scene processing, latent print processing and identification, blood stain pattern analysis and documentation, forensic composite art, excavation of human remains, forensic entomology collection, digital imaging technology and photo enhancement.

Tom has investigated thousands of forensic cases; including, murder, serial and mass murders, police involved shootings, bombings and sexual assaults. He worked at ground zero at the World Trade Center disaster and assisted with the anthrax testing and removal from the New York State governor's office in 2001.

Tom is an adjunct college instructor and serves as a guest lecturer at colleges and universities nation wide. In addition to his lectures, he has worked as a consultant for such entities as the national Institute of Justice. Tom has appeared on Court TV as an expert guest analyst. He has also appeared on the Law Enforcement Television Network (LETN) – "Child Abuse/Child Murders", the HBO series "Autopsy", and the Court TV series "Trace Evidence". He is the author of the *Crime Scene Forensics: A Field Guide for the First Responder* pocket guide series published by Looseleaf Law.

Tom is a nationally recognized speaker who has instructed at numerous forensic training seminars across the United States, including the American Academy of Forensic Sciences, the National College of District Attorneys, The National Institute of Justice Annual Conferences and Technology Fairs, and the Smithsonian Institute. Tom has lectured, on several occasions in Washington, D.C., providing presentations to executive officials of the National Institute of Justice and members of the United States Congress.
